

Interactive Water Play

HippoLeisure

Interactive Water Play

Hippo offers a range of play features that will refresh the pool or poolside of any wet play facility. The fully customised product range includes Splash Toys, Water Factories, Play Platforms and adrenaline rushing Flume Slides. Hippo play features have many benefits. They provide endless fun for children of all ages and abilities, encourage water confidence, create a high visual impact, are easy to operate and maintain and can be installed both indoors and outdoors.

HippoLeisure

Splash Toys

Our bright and vibrant range of Splash Toys can be used together, individually or to expand a play sequence from an existing water feature. Perfect for promoting water confidence through play with the under 8's, toddlers, babies and mixed ability groups. Popular Splash Toys include interactive play panels, spray hoops, themed water squirts, water channels, water tables and toddler slides.

Water Factory

Our bright and bold interactive water play features can be linked together to excite children of all ages and abilities. Span Arms can be used to link Masts, Waterballs and other features together, and bring the water to areas without a water supply such as islands, planters and poolside.

Play Platform

Hippo Play Platforms provide multiple levels of fun and exploration with a variety of high and low level water features, allowing large groups of children to splash, spray, squirt and slide together. The colourful structures can be custom themed and designed to fit most pools or poolside.
